Sketch
SCAPE

- Use your ideas and technologies to design in the emerging field of landscaping
- Theme will be provided on the spot
- Participant has to decode the question and design the landscape
- Knowledge in landscape components (Gazebo, trees, shrubs) needed
- Participant should bring their own materials
- Should draw base plan in graph sheet and a drawing from any angle

Single Entry per College, one participant per entry

Participants can use scale, Colour pencils, Shading pencil

A3 graph/Drawing sheet
will be provided

Time
Planning - 15 min
Sketching - 75 min
Explanation - 5 min

SKETCHSCAPE

ABOUT THE EVENT

This is an event which brings out the creative thinking of participants. It makes them understand the needs and necessities of the customer before designing the landscape. Participants will have to use all their knowledge about the subject (theoretically learnt so far). It will give them an opportunity to effectively use their ideas and technologies in the emerging field of landscaping.

THEME

Theme will be provided on the spot. It will be a case study kind of question, where the participant has to decode the question and design the landscape accordingly.

(e.g : Mr.Mishra want to build a house of 6 cents in a complete area of 15cents , he wants it to be like a farm house with many colourful flowering trees… ....)

RULES AND REGULATIONS

A3 Graph sheet/ drawing sheet will be provided.

Participants can use scale, Colour pencils, Shading pencils mind.

No usage of paints.

Time Schedule: 15 mins – planning the design based on the topic given

1:15 mins – Sketching the design

5 mins – Explanation of their sketch

Participants should have knowledge on the varieties of trees (no need of scientific names, at least common/local name e.g. -topiary, flowering plants/trees, high oxygen supplying trees, common shrubs. Objects like fountains, playing area for kids, gazebo etc can be used)

No usage of any electronic items

Participants should include index (symbols used for that specific plant should be mentioned)

Score Card :

SL. NO.	TEAM ID	USAGE OF APPROPRIATE PLANTS(5M)	CREATIVE DESIGN (5)	USAGE OF OBJECTS (5)	EXPLANATION(5)	TOTAL (20)
